

Avila

An adaptable seating system tailored in infinite forms to enhance design and function in any space.

plural:

"We want to make beautiful furniture for people at some of the most vulnerable moments in their lives, like being in waiting areas or in patient rooms. These situations are so tense, so why are we sitting in something that looks and feels stressful and sad? This is all backwards."

ANTHONY BRANDT
PARTNER, PLURAL STUDIOS

Beautiful. Purposeful. Adaptable.

Avila is the quintessential adaptable seating collection with standard and high back options, long, short, or curved chairs; and multiple table, arm, and leg options. Integrated clean-outs and solid surface components also provide highly functional and beautiful healthcare seating configurations. Make your own design statement with Avila's vast finishes, arm options, and sculpted wood or metal legs.

*"I feel the time is right to introduce
a tailored, modern sensibility to
healthcare furniture."*

BRIAN GRAHAM
AVILA PRODUCT DESIGNER

Avila Series Features

The Avila series of lounge furniture offers a wide array of shapes and components for endless configurations in both public and private spaces.

Flutes

Seat backs feature an optional horizontal flute for added elegant detailing.

Clean-out

Push-through clean-outs between the seat and back insure ease of cleaning and maintenance.

Replaceable Upholstery:

All cushioned products feature standard field-replaceable upholstery to easily create a healthy and sustainable choice for healthcare seating.

Legs

Tapered legs are available in both wood and metal options. Legs also include a ganging version to share between two adjacent units or single legs to create freestanding furniture.

Avila Series Features *Continued*

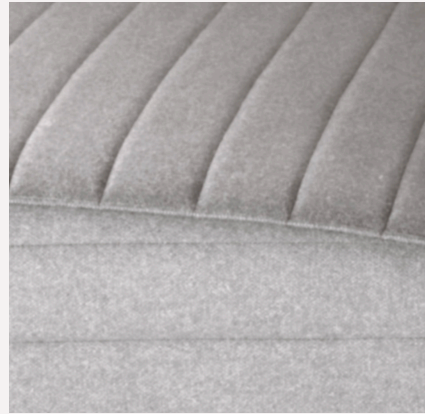

Molded Arms

Elegant molded arms are available in both wood and solid surface. Upholstered arms can be attached at the end or between seating units.

Connectivity

A simple ganging leg component easily connects seats and tables for unlimited configuration options.

Seams

All upholstered seams feature an elegant top-stitch and exceptional attention to detail.

Brian Graham
Avila Product Designer

In 1999, Brian founded Graham Design in San Francisco. With a professional evolution from interior designer to product designer, Brian provides a strategic approach in the design, development, and marketing of furniture and products. Graham's design solutions have been recognized by some of the most prestigious design organizations; including the American Institute of Architects (AIA), the International Interior Design Association (IIDA), the Industrial Design Society of America (IDSA), Chicago Athenaeum Museum of Architecture & Design GOOD Design Awards, and the International Facilities Management Association (IFMA). When he's not sketching ideas for new products, you might find Brian teeing up on the front nine or confabulating about the uniform designs of copious sports teams with fellow birdie-seekers at his perennial favorite hole – the 19th.

"It's the integrity of craftsmanship that matters, from the internal frame all the way out."
