

Upholstery Information

Standard Plural Studios Upholstery

Standard Plural Upholstery offers a range of materials, from fabrics in a variety of colors and textures to vinyls for soil resistance. Please refer to Plural's Graded-In Materials list in the Price Guide, or the Resources section of our web site for reference information.

Graded-In Upholstery

Plural has coordinated with upholstery manufacturers to simplify your order process. Our graded-in offerings have been pre-approved for application on Plural furniture.

Customer's Own Material

Customer's Own Materials (COM's) are welcome at Plural. Many COM's are pre-approved for application on Plural furniture. Plural handles the ordering and tracking of your selected COM.

Email customerservice@pluralstudios.com with your COM selection to determine if it has been pre-approved. If your selection has not been pre-approved, reference the "Receiving COM Approval" section below.

Receiving COM Approval

If your COM choice is not pre-approved, a 12" x 12" memo sample must be supplied for approval before a COM material is accepted for an order. If the material is directional in pattern or weave, the pattern repeat (in inches) in both directions or the weave direction must be supplied.

Excess COM

Plural will not store excess COM for more than 30 days after the order has been completed. If excess material is to be returned after order completion, send the request to Plural Customer Service prior to acknowledge ship date. It is the customer's responsibility to arrange for the return of the material "freight collect."

COM Requiring Application Test

If an application test is required for your selected COM, send test sample material to:

Plural Studios - COM Dept.
4385 N, 75th St., Ste. 201
Scottsdale, AZ 85251-5339

Please include the following:

1. Name and return address
2. Furniture model selected
3. Sketch showing special requirements for the positioning of the material's pattern on the chair seat and chair back, if special considerations are required.

NOTE: All textiles are upholstered railroaded to maximize yield and wear performance. Please let us know if you prefer an up-the-roll application and we will provide a quote.
