

Rochester Sofa

KT725-5-ML-SS
Solid Surface Arm Caps

The Rochester series, designed by Brian Graham, integrates form and function to elevate this timeless seating collection; including a lounge chair, settee, and elegant flop sleeper sofa. Rochester's sculptural lines, rounded back, and simple legs afford extensive material applications. Optional solid surface arm caps and subtly integrated clean-out spacing allow Rochester to gracefully transition from corporate spaces to high-use public and healing environments.

KT725-5-ML
